

UNOMedia 5

Petite Cordless phone

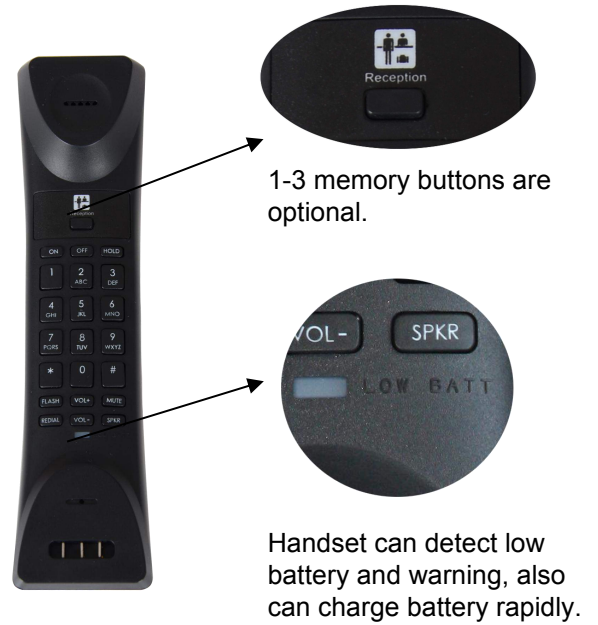

The Bittel UNOMedia5 Petite Cordless phone uses the latest DECT 6.0 platform to deliver crystal clear conversations. The unit features a Full Duplex Speakerphone on the handset, programmable handset speed-dial keys, and supports up to four cordless handsets in the room with automatic handset synchronization. The UNOMedia5 Petite Cordless comes equipped with streamlined power and line cord integration. In case of a power failure, optional battery back up is offered in addition to the unit's lifeline mode.

Special Design

One Base can work with 1- 4 Handsets.
The Base and Handset can make/answer any calls freely.

Our DECT handset features a full duplex speakerphone and 1-3 speed dial keys available.
